& Learning!***

SUMMER CAMPS

This summer, curiosity comes alive at Northeast Community College with hands-on camps designed to inspire young minds.

Summer Fun Starts Here.

Make this summer one to remember. Northeast Community College offers hands-on camps where youth can explore new interests, build skills, and have a great time along the way. Every camp is designed to keep young minds active, curious, and engaged. These camps give students the chance to try something new, discover hidden talents, and connect with others who share their interests.
